

HOW IMASCO CONTRIBUTES TO BUILT GREEN™

The Built Green program adds value to new home construction by promoting and recognizing the use of practices and products that represents resource-efficient and environmentally friendly construction. It is available in AB and BC. For more information on the program visit www.builtgreencanada.ca

The program concentrates on four areas of environmental concern:

- Energy Efficiency
- Indoor Air Quality
- Resource Use
- Overall Environmental Impact

Imasco can contribute in the following categories:

II Building Materials

2-27 Use rainscreen system separating cladding from the wall sheathing with a drainage plane (2 points) 60% or more recycled content (additional 1 point)

➤ Use of Imasco's Vyna strap as part of the RainGuard Stucco System meets these qualifications.

3-7 Natural cementitious stone/stucco/brick or fiber cement siding – complete or combination thereof for 100% of exterior cladding (4 points)

➤ Use of Imasco's Premix or Artisan Stucco alone or as part of the Traditional Stucco Systems meets these qualifications.

IV Indoor Air Quality

4-19 Interior paints used have low VOC content (less than 200 grams/liter of VOCs) (2 points)

➤ Use of Imasco's acrylic and cementitious finishes meets these qualifications.

VIII Business Practice

8-1 Products used for home are manufactured within 800 km (1 point)

➤ Imasco's products are manufactured in Surrey, BC.
