

Two Manufacturers - One System - One Warranty

Warranty Solutions for Complete Cladding Coverage

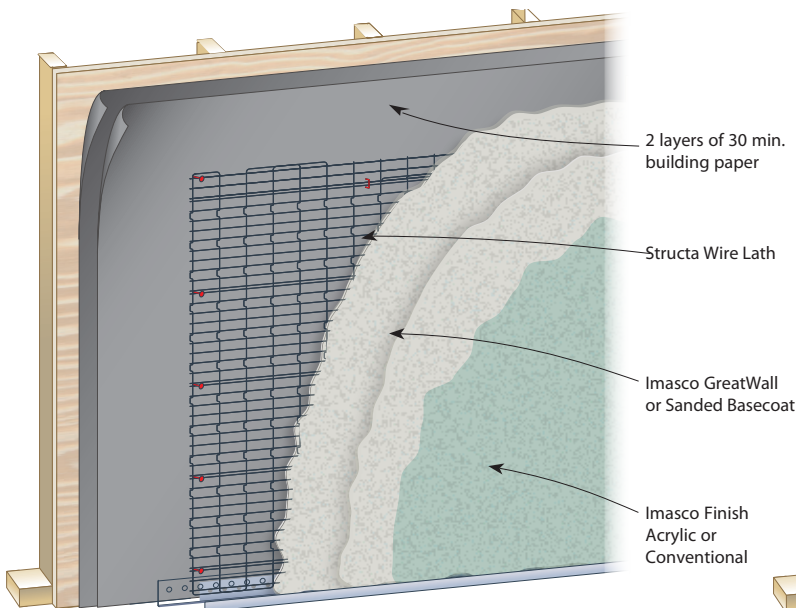

Joint System Warranty

By utilizing Structa Wire Corp's products Imasco provides a warranty from substrate to finish, ensuring that highly compatible products make it onto the wall. This means one warranty, covering all the components, from a single manufacturer.

Through-Wall Solutions

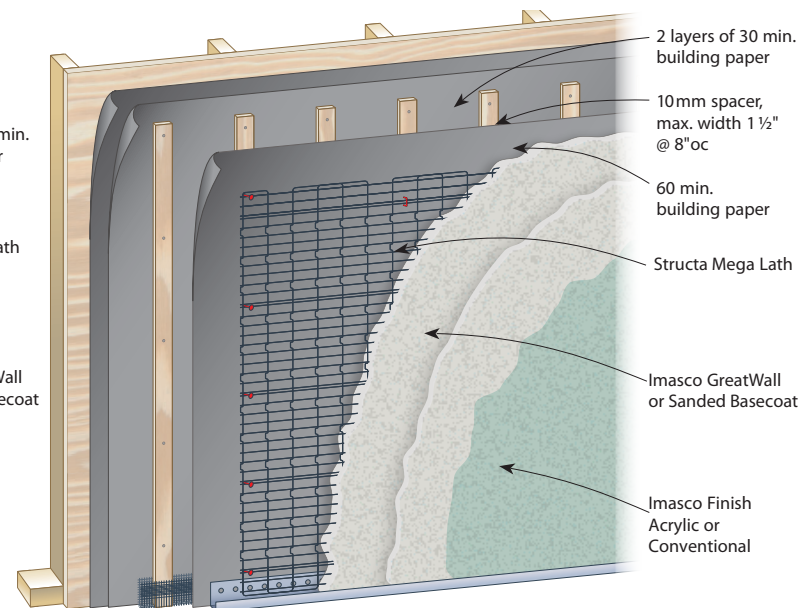

Stringent quality control standards allow Imasco Minerals to provide system warranties of up to 10 years for basecoat, wire and finish. The convenience and peace of mind provided by one warranty, covering all system components, has never been easier to achieve.

Joint Traditional System

- 5 to 10 Year Warranty on Imasco & Structa Wire Components
- Structa Lath ensures correct basecoat thickness and embedment
- Structa Lath is safer, easier and faster to install by design
- Lath contains 60% recycled content & qualifies for LEED points
- Structa Lath is backed by rigorous testing and is ICC-ES compliant

RainGuard Mega System

- 5 to 10 Year Warranty on Imasco & Structa Wire Components
- Provides the same Structa Wire benefits as the Joint Traditional System
- 10mm cavity provides maximum drainage for incidental moisture
- Mega Lath provides superior reinforcement over strapping to reduce cracking
